

## Mission Statement

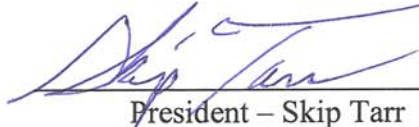

It is the policy of Tarr, LLC to provide quality products and services that meet or exceed our customers' expectations each and every time within a manner that is environmentally responsible, safe and rewarding for our employees while maintaining high industry and ethical standards with our customers, employees, suppliers and our community.

- Senior Management is committed to overseeing and ensuring that safety, quality and complying with all requirements are core values within Tarr, LLC.
- We listen to our customers and understand their requirements, and are committed to delivering quality products/services consistently and courteously.
- We value and partner with our suppliers to provide us with raw materials, services and knowledge to meet our customer needs.
- We are committed to developing long term relationships with our suppliers.
- We recognize all employees' activities are vital to our company's success and thereby provide required training for our work force.
- Through NACD's Responsible Distribution we are committed to managing the risks associated with our operations in such a way as to insure the safety of our employees and the protection of our environment.
- We are dedicated to the belief that quality is a process of continuous improvement.

To this end Senior Management will regularly review the effectiveness of the management system.
